WHY TROT KITCHEN SINKS ARE WORTH THEIR WEIGHT IN GOLD ?

- ▶ All Trot Kitchen Sinks undergo a process called Annealing, where the sink is heated in a furnace at a very high temperature, which improves the quality of the sink immensely.
- ▶ We do not stick heavy pads under the sink which do nothing but increase the weight of the sink, rather we use a soft, weightless pad under the sink to improve the sound deadening effect.
- ▶ We provide free waste pipe worth MRP ₹110/- with every Trot sink.
- ▶ We provide free sink coupling with every Trot sink, which is completely made out of stainless steel and not partially plastic.
- ▶ We provide an unmatched lifetime warranty with our sinks.
- ▶ We do not charge anything extra for Matt Polish/Finish.
- ▶ All Trot Kitchen Sinks are strictly Non-Magnetic and made to last forever even under extreme weather conditions.
- ▶ Only Trot Kitchen Sinks come in a very attractive, coloured single piece box.

- * All MRPs Are Inclusive of Taxes
- * This Price List Supersedes All Our Previous List/s
- * MRP ₹ 50/- Extra For Impression
- * Extra Charges For Ceramic Under Coating
